ONLY TEN DAYS REMAIN OF THE FOURTH LIBERTY LOAN CAMPAIGN. WE'LL SOON KNOW WHO THE SLACKERS ARE.

GREATEST VICTORY OF THE WAR ABOUT TO BE WON ON CAMBRI-ST. QUENTIN LINE

ALLIES BREAK THROUGH ST. QUENTIN-DOUAI FRONT ON TWENTY-FIVE MILE FRONT PUTTING BEST OF HUN TROOPS TO A DISORDERED ROUT

DOUAI, SOLESMES, LE CATEAU AND RIBEMONT ARE IN PATH OF RAPIDLY ADVANCING BRITISH AND YANKS AND ARE EXPECTED TO FALL AT ANY HOUR

HUNS MUST FALL BACK TO VALENCIENNES LINE

BULLETIN

LONDON, 3:37 P. M.—British cavalry are on the outskirts of La Cateau, according to battle front dispatches received here late this afternoon.

The greatest victory in military history appears to be in the making. Attacking on a front of nearly 50 miles from the south of St. Quentin to the vicinity of Douai, British, French, and American troops are reported to have affected a complete break-through along nearly half of this front.

Through this gap the Aliles are pouring in pursuit of fully half a million of Germany's best soldiers who are reported to be in utter rout.

Allied cavalry is galloping at the heels of the retreating Germans while the infantry is following in their wake practically without opposition. A great number of prisoners and a great quantity of material has been taken.

Slaughter of the enemy as the Allies sweep over the last organized defenses of this front is reported to be apalling.

More than 12,000 prisoners were taken in yesterday's operations on this front, according to official reports. A great many in excess of that figure are believed to have been captured.

The great German center of Douai appears to be within the Allies' grasp. The bases of Bohain and Busigny have fallen, and the important transportation center of La Cateau, Solesmes and Ribemont are being rapidly approached.

The nearest defense of the Germans is the Valenciennes line fully 15 miles to the eastward of the present battle front. It is believed the enemy cannot reorganize its army and make a stand before that line is reached.

While the British, French and Americans are widening the scope of their victories in this region the French and Americans are batting away on an 80 mile front between Rheims and Verdun, progressing on wide sectors.

The taking of Camrai badly upset the German plans for retirement. They have been seeking to maintain a gradual withdrawal astride the city, the defenses of which had made it almost the strongest point anywhere in the line. This explains yesterday's desperate counter attack with captured British tanks. It was broken up with anti-tank guns which the British had captured from the Germans.

The Argonne pocket has been virtually wiped out. The French and Americans there are now within less than two miles of Grande Pre with its control of the railway through the forest.

Trapping of a great Austrian army in Albania becomes hourly nearer realization. Capture of Elbasan by the Italians is officially admited by Vienna. The Italians have practically reached the Durazzo line while the French and Serbians are rapidly pushing in upon the Austrians from the Serbian territory.

NEWS FROM THE YANKS

WITH THE AMERICAN FIRST ARMY, Noon.—Heavy fighting is under way in the region of Romagne between the Meuse and the Argonne. The Germans are rushing in large reinforcements and concentrating artillery. The enemy is frantically reinforcing the sides of what remains of the Argonne pocket while withdrawing in the center.

FRENCH RENEW LAON ATTACK

PARIS, Oct. 10.—Renewal of the attack in the Laon region was announced by the French war office today. Progres swas made there as well as east of St. Quentin and in the Champaigne.

HAIG'S REPORT

LONDON, Oct. 10.—Allied troops are within two miles of the great German base of La Cateau, Field Marshal Haig announced today. The British have begun their advance eastward on Lens and have captured Sallaumines. (La Cateau is only 15 miles from the Belgian border between Falenchian and Maubeque. It is 17 miles directly south of the former city.) A teriffic explosion yesterday is reported to havewrecked the center of Cambrai. Already swept by fire 15 to 20 block in the rear of the city are compeltely in ruins.

NEW TURKISH GOVERNMENT MAKING BID FOR PEACE

By RAYMOND G. CLAPPER

WASHINGTON, Oct. 10.—Representatives of the new Turkish government are negotiating with the Allies as to terms upon which they may withdraw from the war, the United Press learned from authoritative sources today.

The new Grand Vizir, Tefik Pasha, pro-Ally, will be a representative it is stated.

The Allies will hold out for them the same terms as they enforced upon the Bulgars.

LIBERTY BOND NEWS OF INTEREST TO YOU

The women of Clearfield can always be depended upon in any emergency. When the state board of health ordered the discontinuance of all Liberty Loan meetings and personal solicitations, the committee in charge of this district were simply up against it and the magnificent organization built up for the purpose of putting the loan across was woefully handicapped. It was decided forthwith to prepare and send a letter to every registered voter in the county acquainting them with the state of affairs and soliciting their bond subscriptions.

To get these letters in the mail required much clerical help and the committee finding it impossible to hire a single additional clerek, askea for volunteers for the work. As soon as the call was made the good women of Clearfield responded and within two hours some fifty-five women volunteers were at work at Red Cross headquarters addressing envelopes and otherwise preparing the letters for mailing. At the end of a day and one-half twenty-three thousand five hundred letters had been addressed, stamped and given over to Postmaster General Burleson's hired men and in due time the men of Clearfield county and Philipsburg were acquainted with the state of affairs and requested to visit their favorite banks or employers offices and subscribe for their share of the Fourth Liberty Bonds.

The Liberty Loan committee says this prompt action was due entirely to the work of the efficient women volunteers and requested The Progress to accord them this public recognition of their patriotic contribution to humanity's cause.

The DuBois "Go The Limit" club now has a total membership of fifty-five. Fifty of these members have subscribed for $5,000 wroth of bonds, one for $7,000 worth, two for $10,000 worth, one for $15,000 and the other for $50,000, making a total of $342,000 thus far.

The local committee in charge of the Fourth Liberty Loan at Irvona reported to the county headquarters this morning that their town had gone "over the top" nicely and had a substantial margin over the quota for that town.

Private Charles Best one of Pershing's veterans who is home on furlough nursng a wounded foot which he received in the hot fighting along the Marne in July will be at the service of the Liberty Loan committee for a few speeches at loan rallies in case the embargo due to influenza is lifted by that time.

WILL SEND MEN TO CAMP GREENLEAF

District No. 2 of Clearfield county has received a call for thirty-four men to be sent from DuBois to Camp Greenleaf, Ga., during the five day period beginning October 21st.

District No. 1 was not asked to send men on this call because of the fact that they had already supplied to the different camps more than enough men to cover this call.

For the same reason District No. 1 was not asked for the 2500 special inductions recently called from Pennsylvania.

ANDREW McCABE DIES AT CAMP MERRITT, N. J.

Penmonia developing from the dreaded influenza now sweeping the country resulted in the death of another of our men in the service of his country. Andrew McCabe, whose mother, Mrs. James McCabe resides at Hawk Run, died at Camp Merritt, N. J. at 12:05 Wednesday morning. A telegram to the family stated the body would be shipped home for burial. He was 29 years of age and enlisted at Detroit on July 29th last, after haviny made ten previous efforts to get in the service.

Besides his widowed mother he is also survived by three sisters and three brothers.

AIRPLANE CARRIES A PIANO

London-to-Paris Trip Demonstrates Power of New Machine

Paris, Oct. 10— One of the new large Allied bombing planes, in order to demonstrate its carrying capacity, has brought from London to Paris a full-sized upright piano. The machine anded in Paris safely.

The airplane is capable of carrying six persons and much bombing explosives. When this weight is measured in pounds, however it is not readily comprehended and it was determined to bring over a piano as striking evidence of the machine's capacity.

BELGIUM RELIEF

Clearfield Pennsylvania chapter, American Red Cross its branches and auxiliaries was asked to send five tons of used clothing for the relief of the stricken population of Belgium. An appeal was made to the good people esiding within the chapter jurisdiction and they responded spendidly, as they always do in times of distress, with the following result:

	pounds
Glen Hope branch	361
Glen Richey auxiliary	430
Bigler	709
Burnside branch	779
Mahaffey branch	1000
Curwensvile branch	2558
Madera branch	2910
Clearfield Pennsylvania chapter	7620
Total	16,367

Other branches are yet to be heard from but the quota given the Chapter is exceeded. Five tons were asked and over eight tons are now in course of transportation. So that when the cod weather comes Cearfield chapter, its branches and auxiliaries will have the satisfaction of knowing that it has contributed to the comfort of stricken Belgium—they heard the call for relief and made a noble response.

HUNS PUT OUT RUMORS TO KEEP UP PEACE TALK

By United Press

London, Oct. 10—While the Allied forces drove the German hordes toward its own borders on the western front today rumors of a critical situation in Germany were flying thick and fast in the Scandinavian countries. One dispatch from Stockholm said it was persistently rumored that the Kaiser had abdicated. Little importance was attached to the rumor here.

Within recent months numerous vague reports concerning the Kaiser have been set afloat which appeared to be a part of the Teutonic peace offensive. Not long ago he was reported in dispatches to be ill from a serious illness. Within a few days another dispatch showed that he was at Manhaim making an address when Alied fliers raiding the city forced him to find refuge in a cellar.

Another dispatch said that the German chancellor will address the Reichstag on Saturday. Probably in reply to President Wilson's note of inquiry.

Another that the Germans are evacuating Russia taking with them everything of value and leaving the rest in the hands of Bolsheviki and that as a result of German press comment the Reichstag has accepted the whole of Persident Wilson's conditions as a basis for peace.

All are believed to be put out to slow up American war activities.

SENATE ASKED TO CONTINUE SAVING DAYLIGHT LAW

Washington, Oct. 10—Senator Calder of New York has introduced a bil lto extend the daylight saving law after October 27, the date set for turning the clocks backward one hour. The bill was introduced with the recommendation of Bernard Baruch, chairman of the War Industries Board, who said war industries would be immeasurably [illegible] a continuance of the present system.

Mr. Baruch sent to Senator Calder a report from the power section of the board, showing that, if the present hours of work are maintained, the "peak load" on all the power plants will be reduced. Inquiry among twenty of the largest power producers in the country brought the report that, with the single exception of Pittsburgh, the load would be reduced from 10 to 15 per cent. This report states:

"These answers represent the opinion, experience and local situation of different parts of the country, and it was hoped to bring out not merely what the effect would be of the daylight saving and the economy on the peak of the load, but also show whether such saving would be of advantage or otherwise in each particular situation.

"We fully realize that this is only a comparatively small factor that enters into this question of daylight saving and we bring it forward in that way for consideration, knowing, as we do, in many of the large industrial centres there is going to be an acute shortage of power and that is one immediate method of relief"

BOND SLACKERS IN DUBOIS GET MUCH-NEEDED PUBLICITY

"By their bonds ye shall know them" or "Buy bonds or ye shall be known" is becoming a Liberty truth these days and before this Fourth Liberty Loan campaign is over the fellow who has been a bond slacker is going to be known to his neighbors.

The following is taken from the DuBois Courier this morning and it represents just exactly what ought to be done with some of our bond sackers in this community. It may be done too for the Executive committee is becoming tired of the trifling of some men in our community are well able to join the "Go The Limit" club.

Every man in Clearfield nobody excepted, is expected to buy a bond. It is recognized that there are many who cannot go above a Fifty dollar bond but it is the experience- of the committees that the fellow who is entitled to buy only a Fifty Dollar Bond is the first fellow to come across. We have too many men of means who are not putting the proper percentage of their wealth into Liberty Bonds.

The local committeee naturally do not quite approve of the method of our sister city and say they do no want it here. Most true. we do not want it, but whether or not it is used will depend on developments and developments depend entirely on bond subscriptions. The men of considerable weath in our city are doing their part but there are some of comfortabe means who are falling down and that fact is known. Only about eight days remain of the campaign and if Clearfield is to go "over the top" we must get away from mild language and a belief that all will do their share willingly and without pressure.

"You can't scare me. I won't give a cent. Not one cent. I had to work hard for my money and I'm not going to give a cent."

So said John Smith, employed at Dinger's Grist Mill, when asked yesterday if he would subscribe for the bonds of the Fourth Liberty Loan. Smith was quite indignant at being pressed to lend of the snug little fortune he has built up in this country to the government to help care for the boys who are fighting the battles of democracy "over there" to make the world safe for his savings.

He had already given much, he thought. Of the third loan he had taken a thousand dollars. He is the owner of a half dozen houses in DuBois. His money was made in selling timber off his Clearfield county land. This has been a good government to him. It gave him opportunity such as are enjoyed by the poor of no other country on the globe. The money received from the sale of his timber was invested in DuBois real estate. Over in Germany it would never have been his to sell It would have belonged to the Kaiser.

Every possible argument was used to induce Mr. Smith to lend some of the tidy fortune he has piled up to the government which has sheltered him and protected him and given him his opportunities, but all to no avail. "You can't scare me. I won't give a cent," was his final answer and not a dollar of his money will go to help America in this crisis of the great world war against Kaiserism.

"I have already subscribed for a $50 bond. That's my limit," said the Rev. Adam Beale when he was importuned to lend of his abundance in aid of the boys across the seas. The Rev. Mr. Beale is another American who has taken advantage of the opportunities presented by his residence here. His wife is the owner of some thirty or forty pieces of income-producing realestate. She has a rent roll approximating $400 a month and has recently raised rents on tenants and is raising more of them as fast as present leases expire.

"It is none of your business," he replied heatedly when asked if he did not think a $50 subscription for a man who had piled up as big a fortune in DuBois asc he had was a little small. "Why, that's in the washerwoman class," explained the solicitor who had approached him on the subject. "There are dozens of washerwomen here in DuBois, women who are standing over a wash tub long hours every day and supporting themselves and their families by their labor, who have subscribed for $50 bonds. There are hundreds of girls in stores, girls employed as servants in DuBois homes, girls in factories here who have subscribed as much as that. Surely you are able to do more than they. Open up Mr. Beale. Think of the boys over there who are living in gas masks twenty-four hours at a stretch, not daring to arise them to take a bite of food or a drink of water. Think of them living in the trenches, filthy and hungry and cold and wet and miserable, going over the top, facing death every minute of the twenty-four hours each day to protect you and the fortune you have piled up here in DuBois. Don't you think you owe them more than $50 worth of support."

But he didn't. That fifty dollar bond is his limit. It is as much as he will invest in making the world a decent place to live in.

"I'll take $200," said Herrick S. Whitmarsh, the liveryman, who is another beneficiary of the American government to the extent of about $30,000 or $40,000 in DuBois real estate and a snug little bank account. He originally offered to take a $100 bond, but when this was refused he raised it to $200. He was solicited by the same men who had talked to Mr. Smith and to the Rev. Mr. Beale. They are United States government agents who chanced to be in this city on another mission at this time and offered their services in getting after one or two DuBois residents who had failed to come across. After much argument on their part he consented to go as strong as $300 but was promptly told that the United States government thinks he has received enough benefit from his citizenship in this country to subscribe not less than a thousand dollars. The mention of this sum almost gave Mr. Whitmarsh heart disease. He says he worked hard for all he has. He fails to see how the government in any way helped or protected him or how the lending of his money now to the government is a duty, a return for favors enjoyed by him during the years of his life in this city, in this state or in this country. What he has he believes he really created. The boys who are fighting and dying over there have no claim upon it. Not one of them are his boys. If they are to be supported, let the mothers who bore them, whose hearts were torn with anguish as they marched away, but who sent them away with a smile—they and the fathers who choked back the sobs and shook them proudly by the hand—let them support them. They are their boys. John Smith and the Rev. Dr. Beale and Mr. Whitmarsh have no interest in them.

The above report was made to the Liberty Loan committee by United States government officials who were volunteer solicitors.

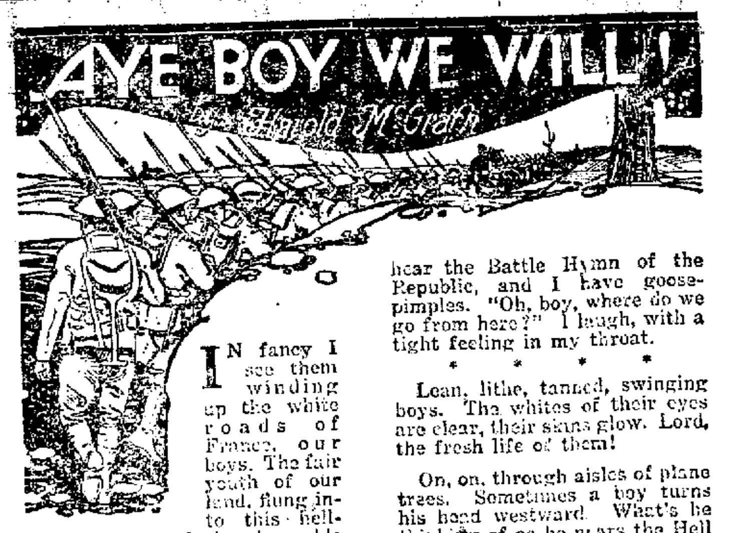
AYE BOY WE WILL!

By Harold McGrath



IN fancy I see them winding up the white roads of France, our boys. The fair youth of our land, flung into this hell-both because of the damnable vanity of one man with six unwounded sons.

What has the Kaiser given but words?

I see the checker-board fields of France, unhappy France, and our own marching up the road. I can hear voices floating back to me. Familiar phrases!

"You son-of-a-gun!"
"Old Scout!"
"You betcha!"
"Treat 'em rough!"

* * * *

I HEAR songs. I hear Yankee Doodle sung as it was never sung before. I hear the Battle Hymn of the Republic, and I have goose-pimples. "Oh, boy, where do we go from here?" I laugh, with a tight feeling in my throat.

* * * *

Lean, lithe, tanned, swinging boys. The whites of their eyes are clear, their skins glow. Lord, the fresh life of them!

On, on, through aisles of plane trees. Sometimes a boy turns his head westward. What's he thinking of as he nears the Hell on earth! Folks back home. He isn't thinking in terms of Liberty Bonds. He's just sort of wondering if we're going to stick behind him.

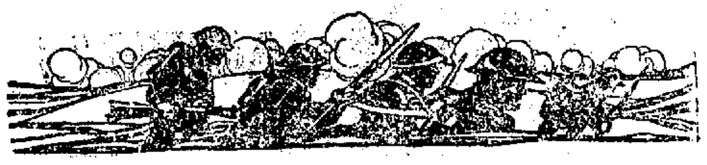
BEFORE God, we are, boy! And the only way we can stick is to buy bonds.

You are giving your life. What the devil do we care about our dollars? You'll get your coffee and slum if we have to pawn the shirts off our backs.

That's the way we feel today. Never you doubt it.

Six billion dollars!

Will we give it! Wait and see!



PLEASANT BIRTHDAY SURPRISE

Mrs. Minnie Logan gave her father H. B. Holmes a delightful birthday surprise party at her home on Reed street last evening. Covers were laid for eight and a pleasant evening was spent by all.

Mr. Homles has reached the 68th mile post on life's journey and Mrs. Logan invited a few of his closest friends to help the "General" properly celebrate that event. The guests aside from the members of the respective families were F. B. Leavy, ex-Sheriff Ira McCloskey, J. D. Connelly and John Baird. A delicious dinner was served, at the conclusion of which the guest of honor was presented with some remembrances from friends and a pleasant hour or two spent in reminiscing regarding some of the happenings about Clearfield during the more than half century Mr. Holmes has been a respected and honored citizen of our town.

Now for some American efficiency!
Bonds are signposts of Democracy.
Buy more than you think you can!
Bonds will beat the Boches. Buy!
Bonds are the home-guns. FIRE!
Bridge the ocean with BONDS.
Poorer than YOU have bought!
The Hun MUST be crused.
Right-shoulder Bonds, MARCH!
Buy as you never did before.
Don't hold an idle dollar back!
Are your dollars "enemy aliens"?
They need MORE grenades.
Remember the hospital ships!
Remember Chateau-Thierry!

GOOD WEATHER HAS FILLED GRANARIES OF THE NATION

WASHINGTON, Oct. 8.—General improvement in crop prospects on Oct. 1 over a month ago was shown to-day by the Department of Agriculture's monthly report. Corn, which had such a big loss in perspective production as a result of July and August weather, improved to the extent of 46,000,000 bushels and now gives prospect of a 2,717,775,000 bushel crop, 441,000,000 bushels smaller than last year's.

Spring wheat improved about 20,000,000 bushels, making a crop of 363,195,000 bushels, 131,000,000 bushels more than last year. With this addition to spring wheat, the total wheat crop, including winter wheat, now in prospect is 918,920,000 bushels. That comes close to the billion bushel mark set by the Government last fall to meet the war needs.

This year's tobacco crop will be the largest ever grown. The department's statement says concerning conditions that brought about the improvement over previous estimates;

"Moisture was sufficient and farm work was favored. Though killing frosts were earlier than usual over large areas of the Northwestern States, relatively small damage was done. Corn in the main belts matured earlier than usual—as a result of summer heat and drought periods, most of it safely—except in the extreme Northern area. An increase of 40,000,000 bushels is shown in the expected outturn, now promising 2,718,000,000 bushels. That is 441,000,000 bushels below the crop of last year, which was, however, of extremely poor quality. It is 43,000,000 bushels or 1.6 per cent. less than the five-year average.

"Spring wheat is turning out better than expected, except in the Pacific Northwest, showing a gain of about 20,000,000 bushels over last month's promise and giving a present estimate of 918,920,000 bushels of spring and winter wheat combined. This is 267,000,000 above last year and 110,000,000 above the five-year average, being exceeded only by the bumper crop of 1,025,800,000 bushels in 1915.

"Oats too are turning out well above earlier hopes. A crop of 1,535,000,000 bushels is estimated, the third of record and but 3-4 per cent. below the bumper crop of last year. The quality is high, 94. Barley, potatoes, both white and sweet; rice, tobacco, cotton, apple sand sugar beets show gains over last month's outlook, and buckwheat, flax and kaffirs only show slight losses."

SHORT NEW MARSHAL

John F. Short, of Clearfield, within the next few days will take the oath of office as United States marshal for this district. His nomination has been confirmed by the United States Senate and his commission is in the hands of Judge Charles P. Orr of the United States District court. Notification of the latter fact has been given Mr. Short by Judge Orr.

Marshal Joseph Howley had no comment to make on the charge. There are a number of subordinates in the office, and it is probable that Mr. Short will make some changes.

Shall We Not Prove Our Gratitude?

Are we not grateful that our homes are not in ruins, our women and children slaughtered and enslaved?

We have been spared thus far the horrors which have been visited upon France and Belgium and other countries which have been fighting our enemies for so long.

What sort of selfish people will we appear to the world if now, when our country asks us to lend our money for the benefit of our boys on the firing line, we fail to answer the call?

The people of the rest of the civilized world have pledged everything they have to defeat the monstrous military power of Germany.

Can we retain our self-respect if we do less?

KYLERTOWN HAS A ROUSING MEETING

The Liberty Loan meeting for the district of Kylertown and vicinity was held last Wednesday evening in the Methodist church.

The weather was favorable and the crowd that gathered ahead of schedule time helped to stir up the patriotic sentiment that could be expected at such a meeting. The Winburne Band played patriotic selections pleasingly and were well appreciated and applauded. The people, however, did not need a band to arouse their patriotic feelings as they seemed ever awake to catch the eloqnent words as spoken by the various speakers of the evening. There was much applauding and a guarantee by a rising vote from the people to stand by the mothers and relatives who have already given the sacrifice by sending boys abroad. There certainly was a willingness shown to help the government in the present crisis.

Prof. P. E. Palmer, Supervising Principal of the Cooper township schools, made the first address, having taken the palce of Father Fisher, of Morrisdale, who was unable to be present. Mr. Palmer spoke mostly about selling bonds; telling how much and how to buy them, the duty to buy them and the plans as carried out in the Cooper Township High School. Interest has been aroused in the schools and the pupils have proved themselves 100 per cent. patriotic.

Lieutenant Dr. Kirk spoke at length and very well. His talk about how the boys are doing "over there" was especially interesting because Kylertown has the distinction of claiming him as one of its most distinguished citizens. He said: The boys receiving the news from home will be delighted to announce that their home committees have gone "over the top" in the Fourth Libeyty Loan drive. It will give new courage to the brave boys who need our support.

The last speaker of the eveneing, Hon. Wm. A. Hagerty, of Clearfield, kept the spirit of patriotism burning high by keeping the people responding to his statements with great bursts of applause. He certainly has a bad feeling toward the Kaiser and his Hohenzollern aids and made statements about them that could be enjoyed by only American patriots. In his idea of completely whipping Germany he expressed the universal idea and aim of the American people.

Surely we must say a word for the chairman, Geo. E. Beam, for arranging for such a good patriotic meeting and because of his untiring efforts in giving so much of his time to the government and the people needing help and advice in the present crisis.

WAS EVIDENTLY AN ERROR

F. D. Souders was advised by wire yesterday afternoon by his sister Mrs. H. I. Hoag of ingston, N. Y., to the effect that she had just received a etter from their brother Harry Souders dated September 14th and as this was some two weeks after the date he was officially declared to have died of his wounds, it would appear that a mistake has surely been made in this case and that the young soldier still lives.

MICHAEL CURRANS SEVERELY WOUNDED

Mr. and Mrs. Daniel Currans, of Morrisdale, on Tuesday night received the sad tidings from the war department that their son, Michael, had been severely wounded on September 12th at the battle front n France.

The young man had been in France about a year. Prior to his enlistment as a volunteer in this war against Geman autocracy, he served four years in the regular amy and saw service on the Merican border.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your back hurts or bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known autherity. Meat forms uric acid which excites the kidneys, they become overwroked from the strain get sluggish and fail to filter the waste and poisons from the bood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come rom sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hourts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and ge about four ounces of Jad Salts rom any pharmacy take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made rfom the acid of grapes and lemon juice, combined with litia and has been used for generatons to flush and stimulate the kidneys, also to neutralize the acids in urin so it no longer causes irritation thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure thereby avoiding serious kidney complications.

TODAY'S EVENTS

1532nd day of the Great War.

Today is Father Mathew Day, the anniversary of the birth of Father Theobald Mathew, the "Apostle of Temperance."

Take The Chill off The House

When the youngsters come tumbling out of bed these chilly mornings they should be greeted with a warm room in order to avoid the chance of the chill that presages influenza.

A PERFECT HEATER will keep your house cozy and warm these mornings and it will not be needful to start the furnace—saving coal.

The ease with which these PERFECT HEATERS are moved from room to room as you go through the morning's work makes them the ideal heat for the season.

PERFECT
OIL HEATERS

You're patriotic in saving coal; you're avoiding chances of taking cold yourself and having a warm room or rooms for the kiddies when they first hop out of bed.

These PERFECT HEATERS are economical in oil burning.

"After Germany Has Won"

Listen to the words of the Hun, spoken by his duly authorized Imperial Chancellor:

> *"After Germany has won, the United States will find herself confronted with an indemnity which will about equal the entire amount expended by Germany in the whole war. For every loan to the Allies, for every bullet, shell, every gun, every conceivable item of war material shipped by America to the Allies, there will be an accounting in gold."*

How do you like it?

How do you like the idea of footing Germany's war bill after she has won the war?

Whether you like it or not, you *know* that what the Imperial Chancellor says is absolutely true

if Germany wins the war.

Therefore it is up to you right now to do your share to see that Germany does not win the war, so that your money will not be given to pay the expenses of the Hun.

Would you rather lend your dollars to America or give them to the Hun?

Choose now. The amount of LIBERTY BONDS you buy is your answer to the impudent boasting of the Hun.

YOU HAVE GARDEN SEED NOW—SAVE IT

Some of the garden seen now growing abundant in your garden will be needed next year when planting time comes. Better save a supply while you can. It is not hard to save seed and quite frequently the home-grown supply is better than any that can be bought from the seedman. Home-grown seeds are suited to local environment and the vigor and productiveness of the plants from which they are selected can be taken into consideration—which is an important point in selecting home-grown seed. Wait until the seed matures, then dry it thoroughly immediately after it has been harvested, put it in packages well labeled and store in a dry place where it cannot be destroyed by insects, rats or mice.

ANOTHER CLEARFIELD BOY MAKES SUPREME SACRIFICE

Earl Edwin Bumgarner, son of Mrs. Mary Bumgarner, of 510 Dorey street, died yesterday at Camp Upton, Long Island, some time yesterday, according to a telegram received by Mrs. Bumgarner.

The deceased was 22 yaers of age and was sent to Camp Geenleaf, Georgia, by the local board of District No. 1 on September 5th, 1918. Before being called for service he was employed in the car shops at the local New York Central yards. He was a sober, industrious upright young man who enjoyed the unbounded respect and esteem of all who knew him.

He is survived by his mother and several brothers and sisters.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Wesley Milligan has moved from his home on Bloomington avenue to the Hugh Irvin farm above town. Barney Ayers the former occupant, has moved his family to rooms in the old Curwensville House.

Merril Weaver, who entered State College some few weeks ago as a student, came home Tuesday night and is now confined to his home with Spanish influenza.

A crowd of youngsters went to Philipsburg Tuesday evening to visit one of the school teachers, but were refused admittance to her home. Some one from this place notifed the Philipsburg people if they allowed the children to enter their house they would have the family visited quarantined. Whether it was done as a joke or from pure cussedness has not developed.

G. M. Bilger visited Curwensville relatives yesterday. He has been in the west for some time and will soon go south where he has an interest in some real estate. "Teddy" was born and raised in Curwensville, studied the law and was admitted to the Clearfield bar. He practised in Coalport and Clearfield for some years. Although his hair and whiskers are tinged with gray, he is the same "Teddy" as of yore.

J. R. Bixer has moved his Herald printing office from the printing block to a more suitable room in the Bilger brick, lately purchased by the McNaul estate.

Four influenza cards have been posted on Curwensville houses so far. None of the people infected by the disease are dangerousy ill, however. "An ounce of prevention though is worth a pound of cure."

It was reported yesterday that the public schools would be re-opened on Monday or during the middle of the week, provded, however, that no more cases of flu were reported in the meantime.

Edward Tawzer has opened up a small shop for the repair of furniture. He is a first class cabinet maker and his work is first class.

The newly drafted ordinances passed second reading at council meeting on Monday evening.

Corn husking bees are now in vogue and the youngsters who attend these gatherings enjoy the fun immensely.

It has come to the notice of the Progress editor that many Curwensville people are borrowing The Progress from their neighbors each evening. Alright we consider it a favor to us and hope the neighbor will not object. However T. & R. K. Way will be glad to have your subscription and will see that it is delivered to you each evening.

NEW MILLPORT

Talk about your Sunday slackers, but New Millport and Turkey Hill go to the front, as several cars are still seen on Sunday.

Rev. Harry L. Jarrat has returned to his home in New Millport after visiting sick relatives near Williamsport.

Good old Millport seems somewhat quiet since all public buildings such as churches, school houses and hotels are being closed on account of the influenza epidemic.

Dr. E. S. Erhard says "work or fight. He says he believes it is best by buying a big Fourth Liberty Loan bond to help lick the Kaiser.

Some of Clearfield's young ladies who were going for chestnuts stopped at Millport to visit relatives Sunday, October 29th. They were not slackers. No sir, for they fed their machine oats and hay.

John Bloom is a hustler since he has received his notice to work or fight. He says he blieves it is best to dig coal and help Uncle Sammy.

A great many people are preparing to attend the sale at the late Jims McKee's residence on Saturday, Oct. 12, at one o'clock.

Born to Mr and Mrs. Percy Snyder, a boy baby. Mothe and son both getting along nicely.

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out poisons

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best day in and day out, just try inside bathing every morning for one week.

Before breakfast each day drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

[illegible] but is sufficient to demonstrate that just [illegible] and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. [illegible] constipation, bilious attacks, acid stomach, [illegible] sallow and complexion pallid, are assured that one week of inside bathing will have them both [illegible] and feeling better in every way.

FOOD FOR PATRIOTS

While admittedly compliance with Food Administrative measures, whether voulntary or compulsory, has been attended by some personal sacrifice and inconvenience to our people as individuals, we are satisfied that the sacrifice is gladly made and that greater sacrifices will be freely offered, if need be, for the great cause of world liberty and freedom for which we are fighting. At the same time we need not be denied the satisfaction of realizing some of the beneficial effects that have resulted from Mr. Hoover's national policy of food control. In two items alone, a stupendous saving has been effected for the country—flour and sugar, and this, applied to Pennsylvania, means on a normal consumption of approximately nine million barrels of wheat flour, a saving in price by regulation, of from ten to twelve dollars per barrel; because it is easily conceivable, that left to the action of the law of supply and demand, flour would have speedily reached a price of twenty-five dollars. This on flour alone means a benefit of at least $90,000,000 to Pennsylvania pockets, while in sugar, just as surely to have soared to a price of 25 cents per pound uncontrolled, with a normal State consumption of 720,000,000 pounds, there is roughly a saving of $100,000,000 more.

YOUR TOWN IS ALRIGHT

Clearfield is one of the cleanest and most sanitary towns in Central Pennsylvania as the health records for years back, and especially the past year show. There are a few cases of diphtheria and other children's diseases being reported just now but not enough to occasion any alarm. The same condition is always existent following the opening of schools and our experience this year is no different from other years or what every other town is experiencing.

Of course just now there is a feeling of alarm over the prevalence of influenza and people are more or less inclined to be finicky and prone to jump at conclusions.

Don't get it into your head that your town is dirty and un-sanitary because some grouch or fellow with a grievance wants to make it appear so. Your health authorities are on the job and have been for many months. You can safely leave the matter of the town's cleanliness in their hands. If you know of anything that should be cleaned up notify the health board, otherwise do not make statements unless you know what you are talking about. It don't help any, and what everybody should do right now is help not find fault; anybody can find fault.

To arms, to arms, and to pocketbooks!

"Speaking of Hosiery"

"Speaking of hosiery," said a woman who does the buying for a fair sized family, the other day, "I have always found that I can get the best hosiery for myself and the children at Ross & Woods that I can get anywhere.

They carry the standard lines and these lines seem to stand the wear better than anything that I have found yet. The Burson hose for myself, the Jim Dandy for the children, and my husband always goes there for his hosiery as he says he can wear their hosiery longer without having his toes through than any he has ever worn."

This woman's experience is not out of the ordinary for our regular hosiery patrons and if you'll try a pair of our standard ilnes you'll become just as enthusiastic as she is.

SPANISH "FLU" IS BEING CHECKED

Some idea of the spread of the Spanish influenza epidemic throughout the different army camps can be gained when it is known that up to Wednesday morning there had been 182,000 cases reported. In almost 20,000 of these cases pneumonia followed and up to that time there had been 5671 deaths. Up to this time the disease had been generaly confined to the camp along the Atlantic coast and has now begun to spread thru the middle far western and southern cantonments.

The Boy Scout may be called upon to assist Clearfield physicians in keeping up with their work should an epdemic become serious here. It has been suggested and the plan is already in operation in some communities, that boy scouts offer their services to the physicains as clerks, auto drivers and attendants. These scouts would not come in contact with the disease but could assist after a physician attends a patient by making any notes, running errands or performing any task that would otherwise take up the physicians time when he might be hurrying to another patient or catching much needed rest and sleep. We can readily see how much a physician would appreciate having somebody to put his car away at the end of a long hard day's work and what a fine thing it would be to have a scout waiting outside the home of the patient to attend to any little details which the physician might have to have performed Scouts, however, should not offer ther services as motor drivers or in any other capacity unless they are willing to strictly obey orders and can perform the work The physician has no time to teach them now.

The Influenza Among our Neighbors

"There are at least 500 cases of influenza in the city of DuBois at the present time and it is absolutely necessary that every precaution be continued," said Dr. James Ginter, city health physician last evening in speaking of the influenza situation' The city still faces the possibility of a serious epidemic and the authorities urge that every precaution be taken to minimize the danger as far as possible. The only saving feature of the epidemic is the fact that the cases thus far developed do not seem to be of a virulent nature and few deaths have resulted But there is no certainty that the disease will not become more virulent as it progresses and the only safe plan is to carry out to the letter the regulations that have been issued by the local authorities.

A slight improvement was noted in condtions, in Jefferson county yesterday, according to the Spirit.

At Wishaw two deaths occurred yesterday, making the total fifty up to the present time. The number of serious cases seem to be abating and the situation generally is improving.

At Reynoldsville physicians there believe the disease is on the wane, no new cases being reported yesterday, and there are few critical cases. The new hospital in the High school is now in use and has several patients in it.

Supplemental order Concerning Sale of Alcoholic Stimulants

To Boards of Health of cities, boroughs and townships of the first class to County Medical Inspectors, and Health Officers in townships of the second class

Consult with leading medical men and make provision for sale through drug stores on registered physicians' prescriptions of alcoholic stimulants, and make provision for wholesale and bottling houses to supply retail needs for this purpose alone.

These orders need not prohibit wholesale shipments of alcoholic beverages to points outside of Pennsylvania.

Where wholesalers, bottlers, clubs or fraternal organzations fail to comply with Sunday's proclamation concerning the sale of alcoholic beverages close them forthwith and where necessary placard as follows: "Closed by Order of the Commissioner of Health."

Place all dealers on their honor to obey the regulation;if any break faith consult with your solicitors take drastic action notify the district attorney and licensing judge notify the state board of pharmacy and this office.

The latest estimate from Massachusetts indicates 15 per cent. sick rate, with 5 per cent of deaths among the afflicted in stricken communities. Prepare for such a maximum load and hope to escape it. One hundred and fifty thousand now sick in Pennsylvania.

VOLUME XIII. CLEARFIELD, PENNSYLVANIA, THURSDAY EVENING, OCTOBER, 10, 1918 NUMBER 85

ONLY TEN DAYS REMAIN OF THE FOURTH LIBERTY LOAN CAMPAIGN. WE'LL SOON KNOW WHO THE SLACKERS ARE.

GREATEST VICTORY OF THE WAR ABOUT TO BE WON ON CAMBRI-ST. QUENTIN LINE

ALLIES BREAK THROUGH ST. QUENTIN-DOUAI FRONT ON TWENTY-FIVE MILE FRONT PUTTING BEST OF HUN TROOPS TO A DISORDERED ROUT

DOUAI, SOLESMES, LE CATEAU AND RIBEMONT ARE IN PATH OF RAPIDLY ADVANCING BRITISH AND YANKS AND ARE EXPECTED TO FALL AT ANY HOUR

HUNS MUST FALL BACK TO VALENCIENNES LINE

BULLETIN

LONDON, 3:37 P. M.—British cavalry are on the outskirts of La Cateau, according to battle front dispatches received here late this afternoon.

The greatest victory in military history appears to be in the making. Attacking on a front of nearly 50 miles from the south of St. Quentin to the vicinity of Douai, British, French, and American troops are reported to have affected a complete break-through along nearly half of this front.

Through this gap the Aliles are pouring in pursuit of fully half a million of Germany's best soldiers who are reported to be in utter rout.

Allied cavalry is galloping at the heels of the retreating Germans while the infantry is following in their wake practically without opposition. A great number of prisoners and a great quantity of material has been taken.

Slaughter of the enemy as the Allies sweep over the last organized defenses of this front is reported to be apalling.

More than 12,000 prisoners were taken in yesterday's operations on this front, according to official reports. A great many in excess of that figure are believed to have been captured.

The great German center of Douai appears to be within the Allies' grasp. The bases of Bohain and Busigny have fallen, and the important transportation center of La Cateau, Solesmes and Ribemont are being rapidly approached.

The nearest defense of the Germans is the Valenciennes line fully 15 miles to the eastward of the present battle front. It is believed the enemy cannot reorganize its army and make a stand before that line is reached.

While the British, French and Americans are widening the scope of their victories in this region the French and Americans are batting away on an 80 mile front between Rheims and Verdun, progressing on wide sectors.

The taking of Camrai badly upset the German plans for retirement. They have been seeking to maintain a gradual withdrawal astride the city, the defenses of which had made it almost the strongest point anywhere in the line. This explains yesterday's desperate counter attack with captured British tanks. It was broken up with anti-tank guns which the British had captured from the Germans.

The Argonne pocket has been virtually wiped out. The French and Americans there are now within less than two miles of Grande Pre with its control of the railway through the forest.

Trapping of a great Austrian army in Albania becomes hourly nearer realization. Capture of Elbasan by the Italians is officially admited by Vienna. The Italians have practically reached the Durazzo line while the French and Serbians are rapidly pushing in upon the Austrians from the Serbian territory.

NEWS FROM THE YANKS

WITH THE AMERICAN FIRST ARMY, Noon.—Heavy fighting is under way in the region of Romagne between the Meuse and the Argonne. The Germans are rushing in large reinforcements and concentrating artillery. The enemy is frantically reinforcing the sides of what remains of the Argonne pocket while withdrawing in the center.

FRENCH RENEW LAON ATTACK

PARIS, Oct. 10.—Renewal of the attack in the Laon region was announced by the French war office today. Progres swas made there as well as east of St. Quentin and in the Champaigne.

HAIG'S REPORT

LONDON, Oct. 10.—Allied troops are within two miles of the great German base of La Cateau, Field Marshal Haig announced today. The British have begun their advance eastward on Lens and have captured Sallaumines. (La Cateau is only 15 miles from the Belgian border between Falenchian and Maubeque. It is 17 miles directly south of the former city.) A teriffic explosion yesterday is reported to havewrecked the center of Cambrai. Already swept by fire 15 to 20 block in the rear of the city are compeltely in ruins.

NEW TURKISH GOVERNMENT MAKING BID FOR PEACE

By RAYMOND G. CLAPPER

WASHINGTON, Oct. 10.—Representatives of the new Turkish government are negotiating with the Allies as to terms upon which they may withdraw from the war, the United Press learned from authoritative sources today.

The new Grand Vizir, Tefik Pasha, pro-Ally, will be a representative it is stated.

The Allies will hold out for them the same terms as they enforced upon the Bulgars.

LIBERTY BOND NEWS OF INTEREST TO YOU

The women of Clearfield can always be depended upon in any emergency. When the state board of health ordered the discontinuance of all Liberty Loan meetings and personal solicitations, the committee in charge of this district were simply up against it and the magnificent organization built up for the purpose of putting the loan across was woefully handicapped. It was decided forthwith to prepare and send a letter to every registered voter in the county acquainting them with the state of affairs and soliciting their bond subscriptions.

To get these letters in the mail required much clerical help and the committee finding it impossible to hire a single additional clerek, askea for volunteers for the work. As soon as the call was made the good women of Clearfield responded and within two hours some fifty-five women volunteers were at work at Red Cross headquarters addressing envelopes and otherwise preparing the letters for mailing. At the end of a day and one-half twenty-three thousand five hundred letters had been addressed, stamped and given over to Postmaster General Burleson's hired men and in due time the men of Clearfield county and Philipsburg were acquainted with the state of affairs and requested to visit their favorite banks or employers offices and subscribe for their share of the Fourth Liberty Bonds.

The Liberty Loan committee says this prompt action was due entirely to the work of the efficient women volunteers and requested The Progress to accord them this public recognition of their patriotic contribution to humanity's cause.

The DuBois "Go The Limit" club now has a total membership of fifty-five. Fifty of these members have subscribed for $5,000 wroth of bonds, one for $7,000 worth, two for $10,000 worth, one for $15,000 and the other for $50,000, making a total of $342,000 thus far.

The local committee in charge of the Fourth Liberty Loan at Irvona reported to the county headquarters this morning that their town had gone "over the top" nicely and had a substantial margin over the quota for that town.

Private Charles Best one of Pershing's veterans who is home on furlough nursng a wounded foot which he received in the hot fighting along the Marne in July will be at the service of the Liberty Loan committee for a few speeches at loan rallies in case the embargo due to influenza is lifted by that time.

WILL SEND MEN TO CAMP GREENLEAF

District No. 2 of Clearfield county has received a call for thirty-four men to be sent from DuBois to Camp Greenleaf, Ga., during the five day period beginning October 21st.

District No. 1 was not asked to send men on this call because of the fact that they had already supplied to the different camps more than enough men to cover this call.

For the same reason District No. 1 was not asked for the 2500 special inductions recently called from Pennsylvania.

ANDREW McCABE DIES AT CAMP MERRITT, N. J.

Penmonia developing from the dreaded influenza now sweeping the country resulted in the death of another of our men in the service of his country. Andrew McCabe, whose mother, Mrs. James McCabe resides at Hawk Run, died at Camp Merritt, N. J. at 12:05 Wednesday morning. A telegram to the family stated the body would be shipped home for burial. He was 29 years of age and enlisted at Detroit on July 29th last, after haviny made ten previous efforts to get in the service.

Besides his widowed mother he is also survived by three sisters and three brothers.

AIRPLANE CARRIES A PIANO

London-to-Paris Trip Demonstrates Power of New Machine

Paris, Oct. 10— One of the new large Allied bombing planes, in order to demonstrate its carrying capacity, has brought from London to Paris a full-sized upright piano. The machine anded in Paris safely.

The airplane is capable of carrying six persons and much bombing explosives. When this weight is measured in pounds, however it is not readily comprehended and it was determined to bring over a piano as striking evidence of the machine's capacity.

BELGIUM RELIEF

Clearfield Pennsylvania chapter, American Red Cross its branches and auxiliaries was asked to send five tons of used clothing for the relief of the stricken population of Belgium. An appeal was made to the good people esiding within the chapter jurisdiction and they responded spendidly, as they always do in times of distress, with the following result:

	pounds
Glen Hope branch	361
Glen Richey auxiliary	430
Bigler	709
Burnside branch	779
Mahaffey branch	1000
Curwensvile branch	2558
Madera branch	2910
Clearfield Pennsylvania chapter	7620
Total	16,367

Other branches are yet to be heard from but the quota given the Chapter is exceeded. Five tons were asked and over eight tons are now in course of transportation. So that when the cod weather comes Cearfield chapter, its branches and auxiliaries will have the satisfaction of knowing that it has contributed to the comfort of stricken Belgium—they heard the call for relief and made a noble response.

HUNS PUT OUT RUMORS TO KEEP UP PEACE TALK

By United Press

London, Oct. 10—While the Allied forces drove the German hordes toward its own borders on the western front today rumors of a critical situation in Germany were flying thick and fast in the Scandinavian countries. One dispatch from Stockholm said it was persistently rumored that the Kaiser had abdicated. Little importance was attached to the rumor here.

Within recent months numerous vague reports concerning the Kaiser have been set afloat which appeared to be a part of the Teutonic peace offensive. Not long ago he was reported in dispatches to be ill from a serious illness. Within a few days another dispatch showed that he was at Manhaim making an address when Alied fliers raiding the city forced him to find refuge in a cellar.

Another dispatch said that the German chancellor will address the Reichstag on Saturday. Probably in reply to President Wilson's note of inquiry.

Another that the Germans are evacuating Russia taking with them everything of value and leaving the rest in the hands of Bolshevikl and that as a result of German press comment the Reichstag has accepted the whole of Persident Wilson's conditions as a basis for peace.

All are believed to be put out to slow up American war activities.

SENATE ASKED TO CONTINUE SAVING DAYLIGHT LAW

Washington, Oct. 10—Senator Calder of New York has introduced a bil lto extend the daylight saving law after October 27, the date set for turning the clocks backward one hour. The bill was introduced with the recommendation of Bernard Baruch, chairman of the War Industries Board, who said war industries would be immeasurably [illegible] a continuance of the present system.

Mr. Baruch sent to Senator Calder a report from the power section of the board, showing that, if the present hours of work are maintained, the "peak load" on all the power plants will be reduced. Inquiry among twenty of the largest power producers in the country brought the report that, with the single exception of Pittsburgh, the load would be reduced from 10 to 15 per cent. This report states:

"These answers represent the opinion, experience and local situation of different parts of the country, and it was hoped to bring out not merely what the effect would be of the daylight saving and the economy on the peak of the load, but also show whether such saving would be of advantage or otherwise in each particular situation.

"We fully realize that this is only a comparatively small factor that enters into this question of daylight saving and we bring it forward in that way for consideration, knowing, as we do, in many of the large industrial centres there is going to be an acute shortage of power and that is one immediate method of relief"

BOND SLACKERS IN DUBOIS GET MUCH-NEEDED PUBLICITY

"By their bonds ye shall know them" or "Buy bonds or ye shall be known" is becoming a Liberty truth these days and before this Fourth Liberty Loan campaign is over the fellow who has been a bond slacker is going to be known to his neighbors.

The following is taken from the DuBois Courier this morning and it represents just exactly what ought to be done with some of our bond sackers in this community. It may be done too for the Executive committee is becoming tired of the trifling of some men in our community are well able to join the "Go The Limit" club.

Every man in Clearfield nobody excepted, is expected to buy a bond. It is recognized that there are many who cannot go above a Fifty dollar bond but it is the experience- of the committees that the fellow who is entitled to buy only a Fifty Dollar Bond is the first fellow to come across. We have too many men of means who are not putting the proper percentage of their wealth into Liberty Bonds.

The local committeee naturally do not quite approve of the method of our sister city and say they do no want it here. Most true. we do not want it, but whether or not it is used will depend on developments and developments depend entirely on bond subscriptions. The men of considerable weath in our city are doing their part but there are some of comfortabe means who are falling down and that fact is known. Only about eight days remain of the campaign and if Clearfield is to go "over the top" we must get away from mild language and a belief that all will do their share willingly and without pressure.

"You can't scare me. I won't give a cent. Not one cent. I had to work hard for my money and I'm not going to give a cent."

So said John Smith, employed at Dinger's Grist Mill, when asked yesterday if he would subscribe for the bonds of the Fourth Liberty Loan. Smith was quite indignant at being pressed to lend of the snug little fortune he has built up in this country to the government to help care for the boys who are fighting the battles of democracy "over there" to make the world safe for his savings.

He had already given much, he thought. Of the third loan he had taken a thousand dollars. He is the owner of a half dozen houses in DuBois. His money was made in selling timber off his Clearfield county land. This has been a good government to him. It gave him opportunity such as are enjoyed by the poor of no other country on the globe. The money received from the sale of his timber was invested in DuBois real estate. Over in Germany it would never have been his to sell It would have belonged to the Kaiser.

Every possible argument was used to induce Mr. Smith to lend some of the tidy fortune he has piled up to the government which has sheltered him and protected him and given him his opportunities, but all to no avail. "You can't scare me. I won't give a cent," was his final answer and not a dollar of his money will go to help America in this crisis of the great world war against Kaiserism.

"I have already subscribed for a $50 bond. That's my limit," said the Rev. Adam Beale when he was importuned to lend of his abundance in aid of the boys across the seas. The Rev. Mr. Beale is another American who has taken advantage of the opportunities presented by his residence here. His wife is the owner of some thirty or forty pieces of income-producing realestate. She has a rent roll approximating $400 a month and has recently raised rents on tenants and is raising more of them as fast as present leases expire.

"It is none of your business," he replied heatedly when asked if he did not think a $50 subscription for a man who had piled up as big a fortune in DuBois asc he had was a little small. "Why, that's in the washerwoman class," explained the solicitor who had approached him on the subject. "There are dozens of washerwomen here in DuBois, women who are standing over a wash tub long hours every day and supporting themselves and their families by their labor, who have subscribed for $50 bonds. There are hundreds of girls in stores, girls employed as servants in DuBois homes, girls in factories here who have subscribed as much as that. Surely you are able to do more than they. Open up Mr. Beale. Think of the boys over there who are living in gas masks twenty-four hours at a stretch, not daring to arise them to take a bite of food or a drink of water. Think of them living in the trenches, filthy and hungry and cold and wet and miserable, going over the top, facing death every minute of the twenty-four hours each day to protect you and the fortune you have piled up here in DuBois. Don't you think you owe them more than $50 worth of support."

But he didn't. That fifty dollar bond is his limit. It is as much as he will invest in making the world a decent place to live in.

"I'll take $200," said Herrick S. Whitmarsh, the liveryman, who is another beneficiary of the American government to the extent of about $30,000 or $40,000 in DuBois real estate and a snug little bank account. He originally offered to take a $100 bond, but when this was refused he raised it to $200. He was solicited by the same men who had talked to Mr. Smith and to the Rev. Mr. Beale. They are United States government agents who chanced to be in this city on another mission at this time and offered their services in getting after one or two DuBois residents who had failed to come across. After much argument on their part he consented to go as strong as $300 but was promptly told that the United States government thinks he has received enough benefit from his citizenship in this country to subscribe not less than a thousand dollars. The mention of this sum almost gave Mr. Whitmarsh heart disease. He says he worked hard for all he has. He fails to see how the government in any way helped or protected him or how the lending of his money now to the government is a duty, a return for favors enjoyed by him during the years of his life in this city, in this state or in this country. What he has he believes he really created. The boys who are fighting and dying over there have no claim upon it. Not one of them are his boys. If they are to be supported, let the mothers who bore them, whose hearts were torn with anguish as they marched away, but who sent them away with a smile—they and the fathers who choked back the sobs and shook them proudly by the hand—let them support them. They are their boys. John Smith and the Rev. Dr. Beale and Mr. Whitmarsh have no interest in them.

The above report was made to the Liberty Loan committee by United States government officials who were volunteer solicitors.

Presdient.

H. S. WHITEMAN, JR.
Vice Pres. & Cashier.

IN fancy I see them winding up the white roads of France, our boys. The fair youth of our land, flung into this hell-both because of the damnable vanity of one man with six unwounded sons.

What has the Kaiser given but words?

I see the checker-board fields of France, unhappy France, and our own marching up the road. I can hear voices floating back to me. Familiar phrases!

"You son-of-a-gun!"
"Old Scout!"
"You betcha!"
"Treat 'em rough!"

* * * *

I HEAR songs. I hear Yankee Doodle sung as it was never sung before. I hear the Battle Hymn of the Republic, and I have goosepimples. "Oh, boy, where do we go from here?" I laugh, with a tight feeling in my throat.

* * * *

Lean, lithe, tanned, swinging boys. The whites of their eyes are clear, their skins glow. Lord, the fresh life of them!

On, on, through aisles of plane trees. Sometimes a boy turns his head westward. What's he thinking of as he nears the Hell on earth! Folks back home. He isn't thinking in terms of Liberty Bonds. He's just sort of wondering if we're going to stick behind him.

BEFORE God, we are, boy! And the only way we can stick is to buy bonds.

You are giving your life. What the devil do we care about our dollars? You'll get your coffee and slum if we have to pawn the shirts off our backs.

That's the way we feel today. Never you doubt it.

Six billion dollars!

Will we give it! Wait and see!

PLEASANT BIRTHDAY SURPRISE

Mrs. Minnie Logan gave her father H. B. Holmes a delightful birthday surprise party at her home on Reed street last evening. Covers were laid for eight and a pleasant evening was spent by all.

Mr. Homles has reached the 68th mile post on life's journey and Mrs. Logan invited a few of his closest friends to help the "General" properly celebrate that event. The guests aside from the members of the respective families were F. B. Leavy, ex-Sheriff Ira McCloskey, J. D. Connelly and John Baird. A delicious dinner was served, at the conclusion of which the guest of honor was presented with some remembrances from friends and a pleasant hour or two spent in reminiscing regarding some of the happenings about Clearfield during the more than half century Mr. Holmes has been a respected and honored citizen of our town.

Now for some American efficiency!
Bonds are signposts of Democracy.
Buy more than you think you can!
Bonds will beat the Boches. Buy!
Bonds are the home-guns. FIRE!
Bridge the ocean with BONDS.
Poorer than YOU have bought!
The Hun MUST be crused.
Right-shoulder Bonds, MARCH!
Buy as you never did before.
Don't hold an idle dollar back!
Are your dollars "enemy aliens"?
They need MORE grenades.
Remember the hospital ships!
Remember Chateau-Thierry!

Make Your Soldier Happy Send Him The Progress

We have had so many requests for the special three-month offer that closed on October 1st for The Progress Over-seas Service that we have concluded to re-open the offer for a short time.

The Special Care Gets The Progress There

Wrapped as they are in an extra tough special wrapper and plainly addressed your soldier will be the happy recipient of a bundle of home papers just as regularly as the confusion attendant with the movement of troops will permit.

Let Him Know What We Are Doing

Just think of his joy, coming out of the trenches into rest camp, to find a bundle or two of The Progress, giving all the home news and heartening him with the news of what we are doing in the old town to back him up—that we are going over the top with the Fourth Loan in spite of the epidemic handicap.

The Special Offer

We will send The Progress to your soldier—or sailor—taking all the precaution possible to get the papers through to him—

GOOD WEATHER HAS FILLED GRANARIES OF THE NATION

WASHINGTON, Oct. 8.—General improvement in crop prospects on Oct. 1 over a month ago was shown to-day by the Department of Agriculture's monthly report. Corn, which had such a big loss in perspective production as a result of July and August weather, improved to the extent of 46,000,000 bushels and now gives prospect of a 2,717,775,000 bushel crop, 441,000,000 bushels smaller than last year's.

Spring wheat improved about 20,000,000 bushels, making a crop of 363,195,000 bushels, 131,000,000 bushels more than last year. With this addition to spring wheat, the total wheat crop, including winter wheat, now in prospect is 918,920,000 bushels. That comes close to the billion bushel mark set by the Government last fall to meet the war needs.

This year's tobacco crop will be the largest ever grown. The department's statement says concerning conditions that brought about the improvement over previous estimates:

"Moisture was sufficient and farm work was favored. Though killing frosts were earlier than usual over large areas of the Northwestern States, relatively small damage was done. Corn in the main belts matured earlier than usual—as a result of summer heat and drought periods, most of it safely—except in the extreme Northern area. An increase of 40,000,000 bushels is shown in the expected outturn, now promising 2,718,000,000 bushels. That is 441,000,000 bushels below the crop of last year, which was, however, of extremely poor quality. It is 43,000,000 bushels or 1.6 per cent. less than the five-year average.

"Spring wheat is turning out better than expected, except in the Pacific Northwest, showing a gain of about 20,000,000 bushels over last month's promise and giving a present estimate of 918,920,000 bushels of spring and winter wheat combined. This is 267,000,000 above last year and 110,000,000 above the five-year average, being exceeded only by the bumper crop of 1,025,800,000 bushels in 1915.

"Oats too are turning out well above earlier hopes. A crop of 1,535,000,000 bushels is estimated, the third of record and but 3-4 per cent. below the bumper crop of last year. The quality is high, 94. Barley, potatoes, both white and sweet; rice, tobacco, cotton, apple sand sugar beets show gains over last month's outlook, and buckwheat, flax and kaffirs only show slight losses."

SHORT NEW MARSHAL

John F. Short, of Clearfield, within the next few days will take the oath of office as United States marshal for this district. His nomination has been confirmed by the United States Senate and his commission is in the hands of Judge Charles P. Orr of the United States District court. Notification of the atter fact has been given Mr. Short by Judge Orr.

Marshal Joseph Howley had no comment to make on the charge. There are a number of subordinates in the office, and it is probable that Mr. Short will make some changes.

Shall We Not Prove Our Gratitude?

Are we not grateful that our homes are not in ruins, our women and children slaughtered and enslaved?

We have been spared thus far the horrors which have been visited upon France and Belgium and other countries which have been fighting our enemies for so long.

What sort of selfish people will we appear to the world if now, when our country asks us to lend our money for the benefit of our boys on the firing line, we fail to answer the call?

The people of the rest of the civilized world have pledged everything they have to defeat the monstrous military power of Germany.

Can we retain our self-respect if we do less?

RESPECTED MT. JOY RESIDENT DEAD

Mrs. William Lutz passed away at her home near Mt. Joy Tuesday evening last after a long lingering illness, aged about 60 years. The deceased had been a highly respected resident of that section all her life. She was a daughter of the late Matthew Tate, of Goshen township and a sister of Mrs. Edith Hipps of Clearfield.

She is survived by her husband William C. Lutz and the following children, viz: Mrs. Jerome Knepp, of Woodland; Ada M. and Blair, of Philadelphia and Verne and Mabel at home. She is also usrvived by two sisters and one brother, Mrs. Edith Hipps, of Clearfield; Mrs. George W. Fulton, of Lawrence and Ira F. Tate, of Goshen.

The funeral will bhe held at Mt. Joy M. E. church Friday morning at 10:30 o'clock. Interment at Mt. Joy cemetery.

KYLERTOWN HAS A ROUSING MEETING

The Liberty Loan meeting for the district of Kylertown and vicinity was held last Wednesday evening in the Methodist church.

The weather was favorable and the crowd that gathered ahead of schedule time helped to stir up the patriotic sentiment that could be expected at such a meeting. The Winburne Band played patriotic selections pleasingly and were well appreciated and applauded. The people, however, did not need a band to arouse their patriotic feelings as they seemed ever awake to catch the eloquent words as spoken by the various speakers of the evening. There was much applauding and a guarantee by a rising vote from the people to stand by the mothers and relatives who have already given the sacrifice by sending boys abroad. There certainly was a willingness shown to help the government in the present crisis.

Prof. P. E. Palmer, Supervising Principal of the Cooper township schools, made the first address, having taken the palce of Father Fisher, of Morrisdale, who was unable to be present. Mr. Palmer spoke mostly about selling bonds; telling how much and how to buy them, the duty to buy them and the plans as carried out in the Cooper Township High School. Interest has been aroused in the schools and the pupils have proved themselves 100 per cent. patriotic.

Lieutenant Dr. Kirk spoke at length and very well. His talk about how the boys are doing "over there" was especially interesting because Kylertown has the distinction of claiming him as one of its most distinguished citizens. He said: The boys receiving the news from home will be delighted to announce that their home committees have gone "over the top" in the Fourth Libeyty Loan drive. It will give new courage to the brave boys who need our support.

The last speaker of the eveneing, Hon. Wm. A. Hagerty, of Clearfield, kept the spirit of patriotism burning high by keeping the people responding to his statements with great bursts of applause. He certainly has a bad feeling toward the Kaiser and his Hohenzollern aids and made statements about them that could be enjoyed by only American patriots. In his idea of completely whipping Germany he expressed the universal idea and aim of the American people.

Surely we must say a word for the chairman, Geo. E. Beam, for arranging for such a good patriotic meeting and because of his untiring efforts in giving so much of his time to the government and the people needing help and advice in the present crisis.

WAS EVIDENTLY AN ERROR

F. D. Souders was advised by wire yesterday afternoon by his sister Mrs. H. I. Hoag of ingston, N. Y., to the effect that she had just received a etter from their brother Harry Souders dated September 14th and as this was some two weeks after the date he was officially declared to have died of his wounds, it would appear that a mistake has surely been made in this case and that the young soldier still lives.

MICHAEL CURRANS SEVERELY WOUNDED

Mr. and Mrs. Daniel Currans, of Morrisdale, on Tuesday night received the sad tidings from the war department that their son, Michael, had been severely wounded on September 12th at the battle front n France.

The young man had been in France about a year. Prior to his enlistment as a volunteer in this war against Geman autocracy, he served four years in the regular amy and saw service on the Merican border.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your back hurts or bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overwroked from the strain get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come rom sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hourts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts rom any pharmacy take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made rfom the acid of grapes and lemon juice, combined with lithia and has been used for generatons to flush and stimulate the kidneys, also to neutralize the acids in urin so it no longer causes irritation thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure thereby avoiding serious kidney complications.

"After Germany Has Won"

Listen to the words of the Hun, spoken by his duly authorized Imperial Chancellor:

"After Germany has won, the United States will find herself confronted with an indemnity which will about equal the entire amount expended by Germany in the whole war. For every loan to the Allies, for every bullet, shell, every gun, every conceivable item of war material shipped by America to the Allies, there will be an accounting in gold."

How do you like it?

How do you like the idea of footing Germany's war bill after she has won the war?

Whether you like it or not, you *know* that what the Imperial Chancellor says is absolutely true

if Germany wins the war.

Therefore it is up to you right now to do your share to see that Germany does not win the war, so that your money will not be given to pay the expenses of the Hun.

Would you rather lend your dollars to America or give them to the Hun?

Choose now. The amount of LIBERTY BONDS you buy is your answer to the impudent boasting of the Hun.

YOU HAVE GARDEN SEED NOW—SAVE IT

Some of the garden seen now growing abundant in your garden will be needed next year when planting time comes. Better save a supply while you can. It is not hard to save seed and quite frequently the home-grown supply is better than any that can be bought from the seedman. Home-grown seeds are suited to local environment and the vigor and productiveness of the plants from which they are selected can be taken into consideration—which is an important point in selecting home-grown seed. Wait until the seed matures, then dry it thoroughly immediately after it has been harvested, put it in packages well labeled and store in a dry place where it cannot be destroyed by insects, rats or mice.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Wesley Milligan has moved from his home on Bloomington avenue to the Hugh Irvin farm above town. Barney Ayers the former occupant, has moved his family to rooms in the old Curwensville House.

Merril Weaver, who entered State College some few weeks ago as a student, came home Tuesday night and is now confined to his home with Spanish influenza.

A crowd of youngsters went to Philipsburg Tuesday evening to visit one of the school teachers, but were refused admittance to her home. Some one from this place notified the Philipsburg people if they allowed the children to enter their house they would have the family visited quarantined. Whether it was done as a joke or from pure cussedness has not developed.

G. M. Bilger visited Curwensville relatives yesterday. He has been in the west for some time and will soon go south where he has an interest in some real estate. "Teddy" was born and raised in Curwensville, studied the law and was admitted to the Clearfield bar. He practised in Coalport and Clearfield for some years. Although his hair and whiskers are tinged with gray, he is the same "Teddy" as of yore.

J. R. Bixer has moved his Herald printing office from the printing block to a more suitable room in the Bilger brick, lately purchased by the McNaul estate.

Four influenza cards have been posted on Curwensville houses so far. None of the people infected by the disease are dangerousy ill, however. "An ounce of prevention though is worth a pound of cure."

It was reported yesterday that the public schools would be re-opened on Monday or during the middle of the week, provded, however, that no more cases of flu were reported in the meantime.

Edward Tawzer has opened up a small shop for the repair of furniture. He is a first class cabinet maker and his work is first class.

The newly drafted ordinances passed second reading at council meeting on Monday evening.

Corn husking bees are now in vogue and the youngsters who attend these gatherings enjoy the fun immensely.

It has come to the notice of the Progress editor that many Curwensville people are borrowing The Progress from their neighbors each evening. Alright we consider it a favor to us and hope the neighbor will not object. However T. & R. K. Way will be glad to have your subscription and will see that it is delivered to you each evening.

NEW MILLPORT

Talk about your Sunday slackers, but New Millport and Turkey Hill go to the front, as several cars are still seen on Sunday.

Rev. Harry L. Jarrat has returned to his home in New Millport after visiting sick relatives near Williamsport.

Good old Millport seems somewhat quiet since all public buildings such as churches, school houses and hotels are being closed on account of the influenza epidemic.

Dr. E. S. Erhard says "work or fight. He says he believes it is best by buying a big Fourth Liberty Loan bond to help lick the Kaiser.

Some of Clearfield's young ladies who were going for chestnuts stopped at Millport to visit relatives Sunday, October 29th. They were not slackers. No sir, for they fed their machine oats and hay.

John Bloom is a hustler since he has received his notice to work or fight. He says he blieves it is best to dig coal and help Uncle Sammy.

A great many people are preparing to attend the sale at the late Jims McKee's residence on Saturday, Oct. 12, at one o'clock.

Born to Mr and Mrs. Percy Snyder, a boy baby. Mothe and son both getting along nicely.

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out poisons

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each day drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

[illegible] inside bathing [illegible] and feeling better in every way.

FOOD FOR PATRIOTS

While admittedly compliance with Food Administrative measures, whether voulntary or compulsory, has been attended by some personal sacrifice and inconvenience to our people as individuals, we are satisfied that the sacrifice is gladly made and that greater sacrifices will be freely offered, if need be, for the great cause of world liberty and freedom for which we are fighting. At the same time we need not be denied the satisfaction of realizing some of the beneficial effects that have resulted from Mr. Hoover's national policy of food control. In two items alone, a stupendous saving has been effected for the country—flour and sugar, and this, applied to Pennsylvania, means on a normal consumption of approximately nine million barrels of wheat flour, a saving in price by regulation, of from ten to twelve dollars per barrel; because it is easily conceivable, that left to the action of the law of supply and demand, flour would have speedily reached a price of twenty-five dollars. This on flour alone means a benefit of at least $90,000,000 to Pennsylvania pockets, while in sugar, just as surely to have soared to a price of 25 cents per pound uncontrolled, with a normal State consumption of 720,000,000 pounds, there is roughly a saving of $100,000,000 more.

YOUR TOWN IS ALRIGHT

Clearfield is one of the cleanest and most sanitary towns in Central Pennsylvania as the health records for years back, and especially the past year show. There are a few cases of diphtheria and other childrens diseases being reported just now but not enough to occasion any alarm. The same condition is always existent following the opening of schools and our experence this year is no different from other years or what every other town is experiencing.

Of course just now there is a feeling of alarm over the prevalence of influenza and people are more or less inclined to be finicky and prone to jump at conclusions.

Don't get it into your head that your town is dirty and un-sanitary because some grouch or fellow with a grievance wants to make it appear so. Your health authorities are on the job and have been for many months. You can safely trust the matter of the town's cleanliness in their hands. If you know of anything that should be cleaned up notify the health board, otherwise do not make statements unless you know what you are talking about. It don't help any, and what everybody should do right now is help not find fault; anybody can find fault.

SAFE, GENTLE REMEDY BRINGS SURE RELIEF

For 200 years GOLD MEDAL Haarlem Oil has enabled suffering humanity to withstand attacks of kidney, liver, bladder and stomach troubles and all diseases connected with the urinary organs and to build up and restore to health organs weakened by disease. These most important organs must be watched because they filter and purify the blood; unless they do their work you are doomed.

Weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pains in the loins and lower abdomen, gravel, difficulty when urinating, rheumatism, sciatica and lumbago all warn you of trouble with your kidneys. GOLD MEDAL Haarlem Oil Capsules are the remedy you need. **Take three or four every day. The healing oil soaks into the cells and lining of the kidneys and drives out the poisons. New life and health will surely follow. When your normal vigor has been restored continue treatment for a while to keep yourself in condition and prevent a return of the disease.**

Don't wait until you are **incapable of fighting.** Start taking **GOLD MEDAL Haarlem Oil Capsules today. Your druggist will cheerfully refund your money if you are not satisfied with results.** But be sure to get the original imported GOLD MEDAL and accept no substitutes. In three sizes. HOSIERY

"Speaking of Hosiery"

"Speaking of hosiery," said a woman who does the buying for a fair sized family, the other day, "I have always found that I can get the best hosiery for myself and the children at Ross & Woods that I can get anywhere.

They carry the standard lines and these lines seem to stand the wear better than anything that I have found yet. The Burson hose for myself, the Jim Dandy for the children, and my husband always goes there for his hosiery as he says he can wear their hosiery longer without having his toes through than any he has ever worn."

This woman's experience is not out of the ordinary for our regular hosiery patrons and if you'll try a pair of our standard ilnes you'll become just as enthusiastic as she is.

Gossip for Tonight's Tea Table

Miss Esther Buck, of Kerr Addition entertained at her home last evening in honor of a couple of Clearfield young gentlemen.

Mr. and Mrs. N. Horn of Washington, D. C., are visiting at the home of their daughter Mrs. Joseph L[illegible]an on Pine street.

Mrs. Anne B. Mignot left today for Karthaus called there on account of the serious condition of her brother, Samuel Briel, who suffered a stroke yesterday.

"Daddy what did you do to help win teh big war?"

SPANISH "FLU" IS BEING CHECKED

Some idea of the spread of the Spanish influenza epidemic throughout the different army camps can be gained when it is known that up to Wednesday morning there had been 182,000 cases reported. In almost 20,000 of these cases pneumonia followed and up to that time there had been 5671 deaths. Up to this time the disease had been generaly confined to the camp along the Atlantic coast [illegible] now begun to spread thru the middle far western and southern cantonments.

The Boy Scout may be called upon to assist Clearfield phyisicians in keeping up with their work should an epdemic become serious here. It has been suggested and the plan is already in operation in some communities, that boy scouts offer their services to the physicains as clerks, auto drivers and attendants. These scouts would not come in contact with the disease but could assist after a physician attends a patient by making any notes, running errands or performing any task that would otherwise take up the physicians time when he might be hurrying to another patient or catching much needed rest and sleep. We can readily see how much a physician would appreciate having somebody to put his car away at the end of a long hard day's work and what a fine thing it would be to have a scout waiting outside the home of the patient to attend to any little details which the physician might have to have performed. Scouts, however, should not offer ther services as motor drivers or in any other capacity unless they are willing to strictly obey orders and can perform the work. The physician has no time to teach them now.

The Influenza Among our Neighbors

"There are at least 500 cases of influenza in the city of DuBois at the present time and it is absolutely necessary that every precaution be continued," said Dr. James Ginter, city health physician last evening in speaking of the influenza situation. The city still faces the possibility of a serious epidemic and the authorities urge that every precaution be taken to minimize the danger as far as possible. The only saving feature of the epidemic is the fact that the cases thus far developed do not seem to be of a virulent nature and few deaths have resulted. But there is no certainty that the disease will not become more virulent as it progresses and the only safe plan is to carry out to the letter the regulations that have been issued by the local authorities.

A slight improvement was noted in condtions, in Jefferson county yesterday, according to the Spirit.

At Wishaw two deaths occurred yesterday, making the total fifty up to the present time. The number of serious cases seem to be abating and the situation generally is improving.

At Reynoldsville physicians there believe the disease is on the wane, no new cases being reported yesterday, and there are few critical cases. The new hospital in the High school is now in use and has several patients in it.

Supplemental order Concerning Sale of Alcoholic Stimulants

To Boards of Health of cities, boroughs and townships of the first class to County Medical Inspectors, and Health Officers in townships of the second class

Consult with leading medical men and make provision for sale through drug stores on registered physicians' prescriptions of alcoholic stimulants, and make provision for wholesale and bottling houses to supply retail needs for this purpose alone.

These orders need not prohibit wholesale shipments of alcoholic beverages to points outside of Pennsylvania.

Where wholesalers, bottlers, clubs or fraternal organzations fail to comply with Sunday's proclamation concerning the sale of alcoholic beverages close them forthwith and where necessary placard as follows: "Closed by Order of the Commissioner of Health."

Place all dealers on their honor to obey the regulation; if any break faith consult with your solicitors take drastic action notify the district attorney and licensing judge notify the state board of pharmacy and this office.

The latest estimate from Massachusetts indicates 15 per cent. sick rate, with 5 per cent of deaths among the afflicted in stricken communities. Prepare for such a maximum load and hope to escape it. One hundred and fifty thousand now sick in Pennsylvania.
